### MISSION ORIENTED BUSINESS INTEGRATED SERVICES (MOBIS)

The Rehancement Group, Inc. (TRG) provides world-class management consulting services to the federal government and commercial clients. Through our services we seek to enhance the value of our client organizations, our people, and our nation as a whole. We seek to drive sustainable results through tested solutions, penetrating insight, and a passion for results. Our growth is fueled by the success of our clients.

We are a Woman-Owned Small Business focused on client satisfaction. Our consultants, who average more than 18 years of experience in their field of expertise, bring a unique blend of public, private and industry experience ensuring our clients receive solutions formed from experience, intelligence, insight, confidence and trust.

TRG's capabilities are centered on enhancing the effectiveness and efficiency of your organization through a realization of measured results. We approach each engagement with a full understanding of situational awareness. Utilizing an iterative problem-solving process, we monitor success by constantly evaluating our strategy and actions to ensure our client's mission is enhanced through realization of its performance goals.

We are focused in what we do. And, as a result, we do not attempt to do all things for all organizations. The portfolio of capabilities at TRG is supported through the expertise of our staff and our passion for excellence. We fully realize that our clients trust us because of our commitment to what we do and who we are.

TRG supports the mission of our clients with the following capabilities under Special Item Numbers (SIN): 874 1/1RC MOBIS Consulting Services, 874-2/2RC Facilitation Service, SIN 874-6/6RC: Acquisition Management Support, and SIN 874 7/7RC Program and Project Management Support.

TRG Business lines include the following:

- **Financial and Cost Management** – TRG understands the accountability and transparency requirements of our government clients. Our business experts and Certified Cost Estimators bring a wealth of experience and knowledge in delivering financial analysis, economic impact studies, cost benefit analysis (CBA), predictive modeling, econometric modeling, forecasting, budget development & monitoring, cost estimating, cost recovery, and cost allocation studies.
- **Energy Security Services** – TRG believes that energy security is the most critical issue on our national agenda. All decisions made should consider the impact on maintaining the sufficiency, surety, and sustainability of our sources of energy. Economics and security dictate an integrated approach to energy and utilities management. We support clients with utility rate making & rate intervention, energy economic analysis, regulatory & policy analysis, supply-side management (SSM), demand-side management (DSM), utility cost allocation, lifecycle cost analysis (LCA), energy & utility program management, business case analysis (BCA), restructuring & deregulation impact analysis, and privatization & municipalization.

- **Real Property Services** – TRG has extensive experience in the acquisition, management and disposal of real property. Our philosophy of full lifecycle asset management seeks to maximize the return on investment while enhancing an organization’s ability to meet or exceed its’ goals. Our Brokers, Consultants and Analysts are prepared to support agencies with portfolio & investment analysis, lease audit & analysis, appraisal services, asset lifecycle management, asset strategy & optimization, brokerage services, property management, public private partnerships (PPP), enhanced use leasing (EUL), base realignment and closure (BRAC) support, privatization, and facility cost allocation.
- **Supply Chain Management** – TRG has the proven capability to enable and enhance an organization’s activities associated with contracting, sourcing, procurement, conversion and logistics management. We understand that having the right materials, at the right place, at the right time and at the right price is mission critical. Whether it’s across the globe or within their own facilities, our logistic specialists are prepared to assist agencies with supply chain management analysis & modeling, policy & process development, process planning & design, and logistics operations costing analysis.
- **Strategic Services** – TRG can augment and enhance our client’s existing capabilities to help develop, refine and enable their strategic planning activities. Our clients’ know their business best. What we lend is a perspective through a different lens that can add clarity to their vision. Our consultants are ready to help agencies realize their strategic goals with market analysis, asset strategy & optimization, feasibility assessment & analysis, portfolio evaluation, operational risk analysis (ORA), competitive sourcing, privatization, benchmarking, and strategic plan development.
- **Program and Project Management** – Guided by the expertise of a credentialed Project Management Professional (PMP), TRG utilizes best practices and a full life cycle approach in assisting our clients in managing their programs and projects. Services include resource planning & analysis, risk management & assessment, earned value management (EVM), change management, strategic technology planning, application selection, implementation, customization & integration, and independent verification & validation (IV&V).
- **Performance Management** – TRG views performance management in simple terms; insuring operational and financial success through well developed systems and processes that consistently meet or exceed our client’s defined performance metrics. We are prepared to help clients realize success with process mapping, data mining, systems and data analysis, metric development & definition, metric evaluation & monitoring, key performance indicator (KPI) assessment, benchmarking, business process re-engineering (BPR), change management, and technology & applications assessment.
